## Coaches Expect Tough Battle At Anson Friday

In spite of Anson's two losses, Coach Bill Grissom said this week that he expects his Pipers to have a tough fight on their hands Friday night when they travel to Anson to play the Tigers. "Anson is always a tough team for us to beat and this is their homecoming," he said.

The Pipers will be seeking to revenge last year's 28-24 loss to the Tigers in their first road trip of the young season.

The Tigers, under Coach Dick Rogers, will be coming off of a 28-0 loss at the hands of the Stamford Bulldogs Friday night. In their opener the Tigers lost to a strong Haskell team, 20-13.

The Pipers will be after their third victory of the season Friday and are coming off of an easy 47-2 victory over Abilene Wylie. In other action in District 7-A: Knox City 7, Rule 6; Munday 12, Rochester 12; Roscoe 22, Rotan 0; and Crowell 0, Seymour 0.

This week Aspermont will play at Jayton, Memphis at Crowell, Seymour at Haskell, Archer City at Knox City, Munday at Rule, Paducah at Spur and Rochester at Rotan.

The Tigers will be running both the Wishbone and Houston Veer offenses with Lewis Washburn at quarterback. He is a 147-pound junior. The strongest running back for the Tigers will be Mark Guffey, a 153-pound junior, who runs hard and is a good open field runner. He will be joined by Fred Salines at the other halfback position. Salines is a 158-pound senior. The fourth member of the Tiger backfield will be Jerry Owens who plays flanker in the veer offense and fullback in the wishbone. He is a 128-pound junior.

Defensively for the Tigers will be Fred Dalines (158) and Allen Dozier (152) at defensive ends; Jori Sprayberry (236) and Brad Cooper (199) at defensive tackles; Kenneth Levens (168) at nose guard; Joe Ramirez (172) and Fidel Garcia (175) at linebackers; David Rodriguez (145) and Jerry Owen (128) at corners; Lewis Washburn (147) and Mark Guffey (153) at halfbacks.

### NEWS AND VIEWS...

#### And What Have You

By BOB CRAIG

It has been some time since we have mentioned "shop at home" in this column and think that it is a subject that is worth bringing up from time to time. Since fall and the start of school is here, now is the time that your local merchants are called upon almost daily to support somebody's pet project.

The following editorial appeared in a recent addition of The Azle News-Advertiser and was written by Don Richards, publisher. We feel it is worth passing along as it applies to Hamlin just as well as it applied to Azle.

**WHEN YOU** try to build a community, dedication, pride and loyalty are just three of the vital factors.

In the area of loyalty, "shop at home" is more than just a chamber of commerce slogan. If a community is to thrive and prosper, then loyalty to the local business community is an absolute must.

We are always disturbed at suggestions at local meetings that goods, which are available from local merchants, be purchased out of town.

Whether it be the city council, school board or hospital board, and whether it be a garden hoe or a complete concrete slab floor, we see no justification for a taxing agency to purchase out of town.

Of course there are some items and services which cannot be obtained locally, but the vast majority of items are here at competitive prices.

Simply stated, nobody cares a hoot about Azle (or Hamlin) except people in Azle (or Hamlin). They pay the taxes, they attend the schools and churches, they use the hospitals, police and fire departments.

**AND IT'S** a two-way street—the merchant must offer a variety of goods and services at competitive prices, and we must buy here in order for him to keep providing products and services desired locally.

And the more goods the merchant stocks, the more taxes he pays to local governmental units. The cycle is a fact of life and one that helps keep our economy strong.

And while private citizens have an absolute right to purchase items where they choose, there's still good and logical reasons to support local business firms.

The following was posed to columnist Ann Landers by a man who obviously was a small merchant.

"...who do you ask to cash your checks? Who do you ask for credit when things are tight? Who do you

## Miss Mehaffey Crowned WT Fair Sweetheart

of Mr. and Mrs. Howard Mehaffey, was crowned West Texas Fair sweetheart Monday night in Abilene. She was selected from among 23 contestants representing Future Farmers of America and 4-H chapters from a wide area of West Texas.

She was chosen on the basis of her personality, achievement, appearance and scholarship. Kayla was representing Hamlin FFA, which had already elected her club sweetheart.

She wants to go into either speech and hearing therapy or veterinary medicine. Miss Mehaffey plans to start her higher education at McMurry College next fall. Later, she wants to attend either Texas Tech University or Texas A&M University.

A Hamlin High School senior, she is a member of the National Honor Society, a drill instructor, president of the Spanish Club and president of the Double Mountain District of the Future Farmers of America. She plays in the stage band and marching band. Her instruments are the tenor saxophone, flute and piccolo.

She was crowned sweetheart at the show arena on the fairgrounds by fair association president Bill Patton.

First runner-up was Elizabeth Asbury of Wylie and second runner-up was Tammy Rabon of Novice.

Third runner-up was Tamie Grindstaff of Knox City. Miss Mehaffey will have

KAYLA MEHAFFEY  
... fair sweetheart

duties as a fair representative during the rest of the fair. On Tuesday she was to be involved in the Texas Forest Service demonstration, "A Tree That Turned into a Milk Carton." On Wednesday she was to

appear in the rodeo march in Taylor County Coliseum.

She will award the ribbons at the Charolais Show at the show arena today (Thursday). She will also give out ribbons at 8 a.m. Saturday at the calf scramble at the show arena. At 1 p.m. Saturday she will award trophies for the batch biscuit contests at the Modern Living Mall, and at 9:30 p.m. Saturday, she is to award trophies for the tobacco spitting contest.

Judges for the contest were Linda Miller, Mrs. Ray Benkoff, Mrs. Jerry Roberts, Randy Wilson and Jack North.

Fair officials note that this was the first year for the sweetheart to reign during final days of the fair. They said that in the past the fair sweetheart has "reigned" in civic activities for a full year. But the tenure is just a week this year because the girls tend to resign before the year is out to go to college, get married or start careers.

## Beta Theta Holds Opening Luncheon

The opening luncheon of Beta Theta Chapter of Beta Sigma Phi was held Saturday in home of Mrs. C. Welton Griggs, sponsor.

Mrs. Pat Willoughby, social chairman, was in charge of arrangements. Assisting her were others on the committee, Mmes. Jim Bonds, John Ferguson Jr., Johnny Jeffrey and Steve Carriker.

The polished serving table was centered with an arrangement of mixed zinnias in a silver bowl. Four round tables were covered with pastel green tablecloths. Pastel napkins and miniature arrangements of yellow flowers with a rainbow background carried out the "End of the Rainbow" theme.

Mrs. John Poe introduced guests, Mrs. Bill Ritchey of Jayton and Mrs. Dan McCoy of Aspermont, and presented a birthday gift to Mrs. Griggs.

Mrs. Randy Brown, vice president, presented yearbooks to members and explained projects for the year.

Others attending were Mmes. Rodger Bell, Mike Byerly, Ginger Crowley, Jo Ford, Jimmy Hastings, Sam Mack Hodges, Joe Hymer, Holman Jones, Ken Prewitt and O. H. Weaver.

### Mrs. Jeffrey Honored On Birthday Sat.

Mrs. Jackie Jeffrey of McCauley was honored with a surprise birthday party Saturday evening in the home of Mr. and Mrs. Kenneth VanDeman.

Gifts were presented and refreshments of party sandwiches, cake and homemade ice cream were served.

Guests were Messrs. and Mmes. Doyle Bell, Gene Stevenson, Billy Jeffrey and Jerry Jeffrey.

Also honored was Miss Carla Young. Her guests were Stacie VanDeman, Tami and Britt Jeffrey, Shelia, Darren and James Jeffrey, Scotty Stevenson and Chris Kiser.

When barbecuing, cook meat and poultry thoroughly, but slowly. Longer cooking over a low fire means less shrinkage and more thorough cooking. Fire should burn down to glowing coals for best results.

### A FRUITFUL IDEA

Not to mince matters, you can make mince-meat out of a lot of fruits, and it will become a sweet way to top desserts, fill pies, flavor yogurt or even garnish meats.

#### FRUITFUL MINCEMEAT

- 1 box (15 oz.) seedless raisins
- 1 cup dried apricot halves
- 1 cup pitted prunes
- 1 cup dried figs
- 2 lbs. tart apples, peeled and cored
- 2 lbs. firm pears, peeled and cored
- 1 large seedless orange, unpeeled
- 1 lemon, unpeeled but seeded
- 1-1/2 cups chopped walnuts
- 1 lb. brown sugar
- 1-1/2 teaspoons cinnamon
- 1/2 teaspoon each: nutmeg, cloves, ginger
- 1 cup Bourbon or brandy or rum

Grind fruit in the order given through the coarse blade of a food chopper. Stir in nuts, sugar, spice and choice of spirits. Spoon into jars and cover. Store in a cool, dry place. Makes about 3 quarts.

Not only can this mince-meat put spice into a meal, it grows in appeal the longer you keep it.

## FROM THE FILES . .

FIFTY YEARS AGO  
(September 17, 1926)

Sunday morning at one o'clock the spacious home of Mr. and Mrs. E. T. McGee on Central Avenue was destroyed by fire. When the alarm was given the entire upper story was in flames and some of the occupants narrowly escaped with their lives. How the fire originated has not been determined, since there had been no fire in the part of the building during the day, and Mr. McGee had gone to the bathroom on the upper floor about ten o'clock that night to be sure that the bathroom heater had been turned out.

Several young men who occupied rooms in the McGee home lost a part of their clothing and other personal effects. Pearson Morgan who jumped from the roof of a gallery suffered a severely sprained foot and has been using crutches since the accident.

This was one of the most handsome and expensive houses in Hamlin, and in a way appears to be one of the most unfortunate. Several years ago when it was owned by Mr. and Mrs. A. D. McLaughlin, it was partially destroyed by fire, and a few years prior it had suffered considerable damage in a storm.

The National Federation of Women's Clubs recently made a nationwide research to ascertain, insofar as possible what American women most desired in the home.

Five hundred thousand homes were surveyed.

Mrs. Mary Sherman, president of the Federation, states that above all things women wanted equipment that would relieve the deadly monotony of daily life within the four walls of their homes. Women said that they preferred the hardest kind of work to the dreary day in and day out monotony of housework and living at home.

1. Automobiles got more votes than cooking stove. 2. Telephones are preferred to bath tubs. 3. Radios are more popular than wash tubs.

The telephone appears to have done more than any other one thing to relieve women of the drear monotony of the home.

TWENTY YEARS AGO  
(September 20, 1956)

Members of the Hamlin chapter of Future Farmers of America held their first regular meeting for the new school year Tuesday at the agriculture building. Principal business of the meeting was to elect officers.

The following new officers were named: Steve Reynolds, president; Davey Weaver, vice president; Mac Reid, secretary; Ronny Parker, reporter; Clifford Green, sentinel; T. C. Blankinship and Harold Eades, advisors.

Coch Truman Nix's Hamlin Pied Pipers strengthened their position in area football circles by defeating a strong Spur Bulldog delegation on their home grounds at Spur last Friday night by an 8 to 12 tally. The local boys found revenge for their 19 to 13 loss last year to the Spur crew in a homecoming set-to.

The winning touchdown was pushed over in the fourth period by John Richey when he plunged from the one-yard spot to score.

Oil production just one-half mile north of the Hamlin city limits in a well being completed this week brings the black gold closest to town. That development and another completion four miles northwest of Hamlin hold the spotlight of oil activity in the Hamlin region this week.

Junior High School Pep Squad elected leaders and twirlers last Thursday. Mrs. Nash Miers is sponsor of the group, and Lola Miltstead will serve as assistant.

Officers names are: Janice Richardson, drum majorette; Jorene Hudspeth, Beth Christian, Janice Wilgus and Mary Smith, twirlers; Nell Waldon, head cheerleader; Melinda Lee, Nina Jean, Carolyn Sue Ray and Glenda Lorenz, cheerleaders.

Mrs. Irma Wallace of Hamlin is among the 15 vocational nurses who graduated September 1 and received caps after completing one year of training at the

Stamford Vocational School of Nursing at the Stamford Sanitarium. Four of this group went to the state board in August. Mrs. Wallace will be one of nine who will go to Austin October 22 for state board examinations.

HAMLIN YEARS AOG  
TEN YEARS AOG  
(September 15, 1966)

The Business and Professional Women's Club held the first dinner meeting of the year at the primary cafeteria Tuesday evening.

Mrs. E. M. Wilson, first President of the Club, who served from date of organization in 1951 to 1953, was given a lifetime membership in the club, together with a silver pin from District Seven of which Hamlin is a member. She also served two years as District Director and has been a most active member until recent months.

In 1924 Mrs. Wilson organized the first Parent-Teachers Association and was the first president. She was a member of the school board for four years and for 10 years was head of the Chamber of Commerce.

She has one daughter, Mrs. John D. (Elmo Joy) Ferguson, and two grandchildren, John and Jane Ferguson.

The 1966 Hamlin High School Yearbook, the Piper, received a superior rating by the National School Yearbook Association. Grading was according to general appearance, content, photographic coverage, word coverage, planning and layout. Members of the staff were Mrs. L. R. Fowler, advisor, Judy Jenkins, editor; Glenda Hudspeth, business manager; Linda Legan, Cynthia Stephens, Sharon Townley, Pat Perrin, Jayne Turner, Sally Carlton, Margaret Johnson, Tommy Oliver, Robert Moore, Larry McCoy, Lynn Brannon and Tim Jones, photographer.

Robert Moore heads the list of new officers for the Student Council, with Randy Smith as vice president. Other officers elected were Helen Moore, secretary, Margaret Johnson, treasurer; and Reba Jackson, reporter. Milburn Wink is sponsor.

The Pied Pipers will be trying to overcome their 8-0 loss at the hand of the Rotan Yellowhammers as they take to the road Saturday night to play Nolan in Fort Worth. The teams will play at 8 p. m. at Trinity Field.

Coch Joe Youngblood said Wednesday that all of his injured boys have returned to practice and he expects them to be ready for action Saturday night. He expects Larry McCoy to be ready to go at fullback and will rotate Sammy Ferguson, Joe Adams and Phillip Simpson at the two running back positions with Paul Long at Quarterback.

John Howard Jr. will head the annual Salvation Army campaign in 1966, according to Floyd Clifton, chairman of the local Service Unit.

The local volunteer Service Unit maintains a local bank account and gives immediate aid to those in need of help. In addition to Chairman Clifton, this volunteer group includes Wesley Nail, Bob Craig, Joe Hudspeth, and Mrs. W. W. Wallace.

Pipers Score In Every Quarter  
Friday to Maul Wylie, 47-2

The Pipers scored in every quarter here Friday night to maul the Wylie Bulldogs, 47-2, in the second non-conference game of the season for both teams. This is the first year for Wylie to play in Class AA and the first meeting of these two teams.

The Piper offense rolled up a total 451 yards while their stingy defense held the Bulldogs to only 121 yards in total offense.

Halfback Delbert Thompson led the Pipers in both rushing yardage and scoring as he had 113 yards in 13 carries and scored three touchdowns. He was followed by Fullback Mike Hymmer who had 109 yards rushing in six plays and scored two touchdowns. One of these scores was on an 85-yard carry up the middle. Fullback Stanley Jones carried 14 times for 85 yards and scored one touchdown and kicked five extra points.

The Bulldogs got into trouble early in the game when they tried to get off a punt on their first series of downs and their punter was dropped for a 10-yard loss at the Wylie 17.

It took the Pipers only three plays to get on the scoreboard with Jones scoring on an eight-yard carry into the left side of the line. He added the extra point and with 8:46 left in the first period, the Pipers led 7-0.

Wylie missed on their only opportunity to score following the kickoff when they got down to the Hamlin 11-yard line on a 44-yard run by Cory Tucker. Hamlin drew a five-yard penalty to give the Bulldogs the ball on the Hamlin six, but four plays later the Pipers took over back on the Hamlin 20. Defensive Halfback Mack Lee broke up a goal line pass play on second down and Thompson dropped the Bulldog quarterback for a 10-yard loss on fourth down.

Mid-way in the second quarter the Pipers drove 62 yards in seven plays for their second touchdown with Thompson going around his right end for three yards and the score. The big play of the drive was a 31-yard pass from Quarterback Paul Reynolds to Flanker Charles Brown. The extra point try misses and the Pipers led 13-0 with 7:15 left in the half.

The Pipers put seven more points on the scoreboard before the half ended on a 75-yard drive that took nine plays. Reynolds completed four passes in the drive with the final one good to Ronald Brown for 17 yards and the score. Jones kicked the point after with 23 seconds left on the clock to give the Pipers a 20-0 lead at halftime.

Lee returned the second half kickoff back 28 yards to the Hamlin 43 and six plays later Thompson went around his left end for four yards and the score. He had a 29-yard carry in the drive and Jones had one for 21 yards. Jones kicked the point after with 9:33 left in the third period.

The next Piper touchdown was set up by a pass interception by Hymer from his defensive halfback position. He picked off the pass at the Wylie 40 and returned it to the 27-yard line. Four plays later Thompson scored on a five-yard carry around his left end. The extra point try failed and the Pipers led 33-0 with 4:57 left in the third period.

Hamlin scored again late in the same period on a 66-yard drive that took seven plays. Hymer scored around his left end on a one-yard carry. Quarterback Drew Tomlinson had a 21-yard carry in the drive and Lee picked up 12 yards to the one. Jones added the point after to

## To Play Tonight

The Hamlin Eighth graders will still be trying to open their season here tonight (Thursday) when they host Anson. The eighth grade game will start at 6 and the Hamlin and Anson junior varsities will play at 7:30.

The games scheduled last week with Haskell were cancelled.

**WATCHING FROM THE SIDELINES**—Coach Bill Grissom put his starting unit on the sidelines for much of the second half Friday night after they had built up a commanding lead. Sitting on the bench and watching the game are from left, Paul Reynolds (41), Allen Young (73) and Stanley Jones (32). The Pipers defeated the Bulldogs 47-2 to remain undefeated in two starts. Wylie punted to the Hamlin 10 following the kickoff and the Pipers were set back to the five on a penalty. Tomlinson was dropped behind his own goal line for the Bulldog's only points of the game with 10:30 left.

Charlie Brown picked off a Wylie pass to set up the next

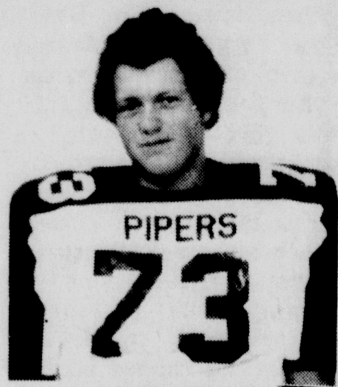

Piper score. The Pipers were charged with a 15-yard penalty which put the ball in play at their own 15. On the first play Hymer broke up the middle for 85 yards and the score. Jones added the point after with 9:23 left on the clock.

This ad is for people who didn't read the last ad about holding down their gas bills, and wish they had.

(Please, read it this time.)

We all have to face facts: the days of cheap energy are over. Gas bills have been going up. That's why we've been telling our customers how to hold their bills to a minimum.

A lot of people are already using gas more wisely. If you are one of them, read on just in case you've missed a tip or two.

If you are not one of them, this is the time to start. Here's how:

**Get out of hot water.** Hot water is one of the biggest and most expensive energy users in the home. A shorter, not-quite-so-hot shower helps save money. A dripping hot-water faucet is a bandit.

The same is true in the kitchen and laundry room. Wash only full loads in the dishwasher. Wash and dry only full loads of clothes. Don't overdry. It makes clothes harsh and stiff and wastes fuel.

**Speaking of the kitchen,** you can save gas by planning oven meals around dishes that can be cooked at the same temperature. When using top burners, tailor the flame to fit the pan.

**Get your house in order.** Make sure you have six inches of insulation in the attic. And check regularly to make sure it hasn't settled. Make sure your exterior walls are insulated. Check the weather stripping around doors and windows, and make sure they stay closed when the heating or air conditioning is on.

No single one of these tips will save you an immense amount of money, but each one helps a little. Add all those little savings up, and it could make a big difference.

## SCUBA CLASSES

**SNYDER**—Instruction in skin and scuba diving will be offered in a new community Services course being planned at Western Texas College.

A maximum of 20 students will be accepted in the class and a minimum of 10 will be required to form the class.

Instructors will be Carlton Barber, a WTC faculty member, and Jerry Bell from Dallas who is certified and insured by the Professional Association of Diving Instructors (PADI). Students who satisfy the course requirements will be certified as divers by the PADI.

Thirty-two hours of instruction are planned, including classroom sessions, a pool diving and proficiency and safety checkout, and an open-water lake checkout. Students must be in good health and demonstrate ability to swim during the first pool session.

Students will pay \$75 each and will be required to furnish personal diving gear including fins, face mask with snorkel and diving manual. Tanks, packs, air regulators, flotation vests, weights and belts will be furnished by the instructor.

If the students desire, an open-water checkout and four days of diving may be arranged in the Florida Keys at extra cost, Barber said.

Classes will start Oct. 2, 1976 from 9 p.m. to 12 p.m. at Western Texas College.

Persons interested in the course may contact the Community Services office at WTC, 573-8511, extension 237, for additional information.

# Philosopher Comes Out for Windmills To Solve the Nation's Demand for Electricity

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One discusses the energy problem this week, we suppose.

Dear editor:

According to an article I read in a newspaper last night, the government is going to build the biggest windmill in the history of mankind, with blades spanning 200 feet on a tower 140 feet high, to see how much electricity we can get from the wind. It'll cost 7 million dollars and, if the wind doesn't die too often, is supposed to generate enough electricity for 500 homes.

I have given this considerable thought and have run into a few stumbling blocks. For instance, the interest on 7 million dollars at 7 per cent is \$490,000 a year, which comes to \$980 per home if the windmill supplies 500, before any charge for electricity is added on. Whatever your electric bill is now, just add that on to the \$980. This of course does not include incidental maintenance costs for the rig, such as axle grease to keep the giant mill from squeaking and thus avoiding a noise-pollution lawsuit by the environmentalists. And also it doesn't allow anything for the repayment of the 7 million dollars, although with government loans that's sometimes not necessary.

But I was just thinking, the average windmill with an 8-foot blade span like ranchers use to pump water costs about \$1,000. I don't know how

much electricity one would generate, but say you tripled its size. That ought to produce enough electricity for one home, if you live in a windy part of the country. So say one electricity-generating windmill per home cost \$3,000. For 7 million dollars you could get 2,300 such windmills, taking care of 2,300 homes, as against 500 the government's plan anticipates, assuming the occupants don't keep their TV sets on over 14 hours a day. Anything beyond that seems foolish.

So let's say the wind is the answer to the energy problem. Right now I want to announce that I have filed a claim in Washington for sole ownership of all the wind that blows in this country. The company will be known as General Wind, Incorporated, and while I have no notion a meter can be developed to measure the amount of wind blowing through a windmill's blades, there certainly is one you can put on the other side to measure the amount of electricity coming out.

Stock in this company will be limited to people who have well-established reputations as blow-hards. The board of directors will consist mostly of congressmen.

Yours faithfully,  
J.A.
